

Proceedings
Teaching Entrepreneurship to Engineering
Students

Engineering Conferences International

Year 2003

Table of Contents

The Editors
of the Proceedings

CONTENTS

| | |
|---|------------|
| Importance of Entrepreneurs to the U. S. Economy – Joseph Bordogna | 1 |
| PairGain: The Copper Optics Company – Howard Flagg 9 | |
| The Role of ABET Criteria in Creating the Entrepreneurial Engineer – George Peterson | 23 |
| International Entrepreneurship Education – R. C. Jones and B. S. Oberst | 25 |
| Entrepreneurship: Personality, Perspective and Process – Caron H. St. John | 31 |
| Entrepreneurial Contexts and Traits of Entrepreneurs – W. R. Pendergast | 39 |
| Reaching Out to Entrepreneurial Engineers – Robert Crockett | 53 |
| Creating an Entrepreneurial Culture at MIT – Joel Moses | 57 |
| Engineering Entrepreneurship at Rensselaer – Creating an Entrepreneurial Culture – Lester A. Gerhardt | 65 |
| The Entrepreneurial Engineering Culture at the University of Maryland – D. Barbe | 77 |
| Examples of Initiatives to Engender an Entrepreneurial Culture in the Faculty of Engineering at the University of Sydney – Judy Raper | 87 |
| What is the Culture at a University that Fosters a Spirit of Innovation and Entrepreneurship – W. M. Leonard, C. Lundgren and R. Merrill | 89 |
| Development of an Institutional Culture to Encourage and Teach Entrepreneurship – Keith Sheppard and C. V. Schaefer, Jr. | 99 |
| Developing an Entrepreneurial Culture for Faculty, Researchers, and Students – Abigail Barrow | 107 |
| Lessons in Interdisciplinary Collaboration: The Caltech Entrepreneurial Fellowship Program – Renee Rotter and Kenneth Pickar | 123 |
| The Development and Implementation of an Interdisciplinary Graduate Course Linking Business, Engineering, Arts and Sciences and Medical Students with University Research Investigators to Develop Strategies to Commercialize New Technologies – M. W. Fountain | 127 |

| | |
|--|------------|
| Moving Students with Entrepreneurial Mindsets to Being Technology Entrepreneurs – Elizabeth C. Kisenwether | 129 |
| To Sell the Better Mousetrap – David Bodde | 135 |
| Creating an Entrepreneurial Culture at a Startup Engineering Program – A. J. Marchese, J. L. Schmalzel, J. C. Chen and K. M. Weaver | 145 |
| Entrepreneurship and Engineering Education: The Multidimensional Approaches of Rose-Hulman Institute of Technology – T. Mason | 159 |
| Technological Innovation: An Option in the MS Technology Program – James R. Gray | 169 |
| Ph. D. Research in an Entrepreneurial Environment – W. H. Stevenson, M. C. Thursby and R. J. Steuterman | 183 |
| Experience with an Entrepreneurship Minor for Engineering Students – McRae C. Banks | 195 |
| Mississippi State University Engineering Entrepreneurship Program – Robert P. Taylor | 201 |
| The Engineering Entrepreneurial Program at Lawrence Technological University – Steve Howell | 203 |
| Teaching Students About the Venture Capital Process Through a Professional Conference – Larry Stauffer and Shirl Boyce | 215 |
| Recapturing and Conveying the Excitement of Engineering Through Practice, Innovation and Integration – Marshall M. Lih | 221 |
| Supplementing Engineering Education with Business Training – Andres C. Salazar | 237 |
| Teaching New Venture Creation to Engineers and Computer Scientists – Edwin R. Addison | 243 |
| Kauffman Collegiate Entrepreneurship Network – Margaret Kenefake | 251 |
| National Collegiate Inventors and Innovators Alliance – Phil Weilerstein | 257 |
| Bridge Ventures | 265 |
| Conference Summary – Russel C. Jones and Bethany S. Oberst | 273 |
